

It may not be too late!

To save your pregnancy

Chemical abortions (Mifeprex or RU-486) accounted for 1,725 of the 3,154 babies aborted in Arkansas in 2020 – that’s 55 percent. *But your baby doesn’t have to be one of those statistics!* There is hope now called **Abortion Pill Reversal** that may reverse the effects of the abortion pill! Already, about 3,000 babies have been saved with this method!

**CALL OUR 24/7 HELPLINE:
(877) 558-0333**
