# Happy Father's Day!

**ARKANSAS**  
**RIGHT TO LIFE**

In a world that too often devalues life, today we pause to honor the men whose strength and sacrificial love shapes lives and models courage.

Fatherhood is a sacred role that lays the foundation for a culture that affirms the worth of every human being, born and unborn. **Thank you for answering the call!** Your impact will echo through generations.

**This weekend, we celebrate you.**

## Happy Father's Day!

P.S. If you are a man or woman who has experienced the loss of a child to abortion, you are not alone. We invite you, if you haven't done so already, to visit our [memorial garden](#).
